Dear Mr Pennock,

Downs Light Railway Trust Centenary Development Programme

Dave Harvey has kindly sent me a copy of your excellent Centenary Development Programme. We are very keen to provide training and experience opportunities for young people and have our own programmes for various age groups.

On behalf of the Talyllyn Railway Company I offer our support to your objectives and plans and wish you every success in your endeavours. It is now more important than ever to offer young people the chance to obtain railway and engineering skills to help them gain confidence and to inspire them.

If you ever wish to bring a group of youngsters to Tywyn to visit our Railway we would be happy to provide a free train ride and arrange for them to visit our workshops and other behind the scenes locations.

Yours sincerely,

David Ventry,
Chairman Talyllyn Railway Company and Talyllyn Holdings Ltd..
